*Consumers should use MDPE pipe for underground portion for carrying portable water.

How to calculate your Bill amount:

Divide the total units consumed by number of days for which bill has been issued and Multiply by 30 to give per month average water consumption. Water consumption charge will be calculated as per tariff for the respective category as mentioned above. Sewerage maintenance charge will be 60% of water consumption charges. Add Service Charges as per respective category and consumption slab. It will give you the bill amount.

Payment Channels:

Besides DJB ZRO's offices listed below, consumer can make payment online through e-payment gateway option at RMS/DJB website/Customer Portal (www.djb.gov.in) and branches of authorized Banks by Cash and Cheque at Allahabad Bank, Corporation Bank, IDBI Bank, Union Bank Of India, KIOSK installed at different locations, Outlets of Easy Bill and through ITZ Card.

Tariff consists of four parameters:

1. Water- To be measured on volume basis.
2. Sewerage maintenance charge- levied @ 60% of water volumetric consumption.
3. Fixed Service Charges- Levied on the basis of slab wise consumption
4. Cess Charges- Levied @ 2 paise per Kilo Litre
5. Meter rent incase of DJB meter.

As can be observed from the tariff that Delhi Jal Board emphasizes on the conservation of water. Since every consumer is not having sewer facility hence separate water, sewer and service charges are shown on the bill. The cost incurred by board is around Rs. 30 per KL for water & sewerage treatment & supply to consumer end. Hence, consumers are advised to conserve water by:

1. Plugging all leakages in pipes, joints, taps, overhead tanks etc.
2. To use kitchen waste water for gardening purposes.
3. To wash vehicles etc. by bucket instead of pipe.
